## Estimating Residential: Construction, Roofs & Metal Sheathing

**Date:** April 29 – April 30, 2026 (2 day course)

**Time:** 8:30 am – 4:00 pm

**Location:** Sandman Signature Langley Hotel, 8828 201 St, Langley Twp, BC V2Y 0C8

**Estimating for Residential Construction** covers all the basics of estimating residential construction starting from the ground up. This includes disclaimers, walls, roofing systems, metal sheathing and reading and understanding blueprints. Attendees are provided with a step-by-step workbook to assist them through the course. The workbook is theirs to keep for future reference.

**Who Should Attend?** It is recommended that estimators who frequently produce estimates for houses should attend this course.

### Objectives:

1. Acquire a good understanding of building practices.
2. Gain knowledge of products used in home construction.
3. Learn to produce accurate and professional estimates.

### Course Outline

**Introduction:** Learn how to read a residential blueprint; learn the basics sections of house construction.

**Clarification of Terminology:** The attendees will be taken through all necessary terminology to complete the course.

- Introduction, skill-set required, course objective
- Structural specifications
- Calculating waste factors
- Reading & understanding blueprints
- Foundation, beams, floor systems, stairs, roof system
- Interior walls, interior components
- Qualifying your customers
- Estimating strategies, table & charts
